

The **BEST** Program For The Eyes of Texas

The **B**lindness **E**ducation, **S**creening, and **T**reatment (**BEST**) Program is a voluntary program enacted by the Texas Legislature in 1997 and is jointly administered by the Texas Department of Public Safety and the Texas Commission for the Blind.

BEST educates Texans about blindness, screens Texans for serious eye problems, and provides vision-related medical treatment for Texans who are without adequate medical coverage. In so many words, it is a program for the eyes of Texas.

The success of **BEST** depends on a voluntary contribution of one dollar. If you wish to do the **BEST** thing, please let the clerk know you wish to make a voluntary contribution of \$1.00 to the **BEST** fund. This only adds one more dollar to the cost of your driver's license or identification card.

BEST — the way to care about the eyes of Texas one dollar at a time.
